Uni, any colour	5,9	1900	3,60 - 4,50

Revolutionary! M.I.D. Carpets has developed a carpet which could not be produced before as a Wilton Woven carpet. Wall-to-wall and rugs in a combination of wool and silk, the Saga Silk Melée.

The M.I.D. creative team developed 11 defying colour combinations for the Saga Silk Melée, presented on the previous page, applicable for both classical and trendy interiors. Be inspired by the rich and luxury combination of the highest quality wool and silk available. Printed colours are as realistic as possible, colour differences between actual product/sample may occur.

The Soie de Wave and the Soie de Bouclé, both a combination of 66% pure New Zealand wool and 34% pure silk, are available in any colour. Just to meet your customers wishes.

During the official introduction in 2006 the Saga Silk Melée has been awarded with the 'BEST WOOLS OF NEW ZEALAND INTERNATIONAL DESIGN RANGE BROADLOOM'!
